

THE LANGUAGE OF WONDER

A graphic novel inspired by the Overview of Wondrous Wisdom

We have mastered information.
We can count, predict
and build extraordinary things.

But we still struggle
with the deeper questions:
What is a good life?
What truly matters?
How should we live together
on a fragile planet
in a vast universe?

This is a story about a search —
for a language of wisdom.

"SOME SEEK ANSWERS.
WE EXPLORE BETTER QUESTIONS."
— HOUSE OF INQUIRY

SOMEWHERE IN ORBIT...
THE HOUSE OF INQUIRY.

Incredible...
I've never seen this
section before.

ORI

Few have.
These are the
foundational archives.

THE MAP
OF
QUESTIONS

"NOT ALL THOSE
WHO WANDER
ARE LOST.
SOME ARE LOOKING
FOR A WISER WAY."

We've learned how to turn
data into knowledge, to predict
and optimize. We've built amazing
technologies.

But knowing more doesn't always
mean living better. We can solve
problems and still feel lost about
what really matters.

ORI

That's why Wondrous Wisdom
brings these pieces together —
our lived experience, our values,
our questions, and our understanding
— into a coherent map of thought.
It's an invitation to think more deeply
and live more fully.

A SIMPLE PATH. A DEEPER JOURNEY.

DATA

Facts
and observations

"What is there?"

KNOWLEDGE

Organized
information

"What does it mean?"

UNDERSTANDING

Deeper insight
and context

"Why does it matter?"

WISDOM

Judgment,
meaning and
better action

"What should we do?"

FROM INFORMATION TO A MORE WISE AND COMPASSIONATE WORLD

Then let's learn
how wisdom thinks.

ORI

A wonderful
next step.

FROM THE HOUSE OF INQUIRY, MIRA AND ORI LOOK OUT ON A HUMAN COLONY — A REMARKABLE ACHIEVEMENT.

It's incredible... So much progress.

ORI

Humanity can now build cities in space, harness clean energy, cure many diseases, and connect billions of people.

We have become extraordinarily powerful at information, technology and control.

A BRIGHTER TOMORROW TOGETHER

CLEAN ENERGY
+98%

HEALTHY LIVES
+40 YEARS

GLOBAL CONNECTIVITY
8.1B ONLINE

PREDICTIVE SYSTEMS
99.7% ACCURACY

YET EVEN HERE, PEOPLE STRUGGLE.

DIFFERENT TRUTHS. DEEPER DIVIDES.

WHAT IS A GOOD LIFE?

MORE CHOICES. MORE ANXIETY.

CAREER?
FAMILY?
SECURITY?
PURPOSE?
WHAT MATTERS?

We can predict the weather, but still struggle to agree on what is right. We can connect the world, yet feel divided. We have more choices than ever, yet many people feel lost.

We have so much information, and yet so many people still feel confused, anxious, or alone.

Why is that?

ORI

Information tells us what is. But it doesn't always tell us what matters, what to value, or how to live well together.

A MORE HUMAN TOMORROW IS STILL A QUESTION

THAT'S WHY WE NEED A LANGUAGE OF WISDOM.

ORI

Wondrous Wisdom was created to help us connect the essential pieces — our lived experience, our values, our questions, and our understanding — so we can think and live more wisely.

It's not just about knowing more. It's about making sense, finding meaning, and choosing what leads to a kinder, wiser, and more compassionate world.

So wisdom isn't just an idea — it's something we can learn, explore and practice?

ORI

Exactly. And we can do it together.

QUESTIONS LEAD TO UNDERSTANDING. UNDERSTANDING LEADS TO A BRIGHTER TOMORROW.

WHY A LANGUAGE OF WISDOM?

TO CONNECT WHAT WE KNOW, WHAT WE CARE ABOUT, AND WHAT WE CAN DO — FOR A WISER TOMORROW.

Real lives
Real stories
Diverse perspectives
What is happening?

EXPERIENCE

What we live and see in the world.

?

QUESTIONS

What we wonder, need to know or still don't understand.

- Big questions
- Different viewpoints
- Uncertainty
- A curiosity mindset

WISE ACTION

- Human well-being
- Kindness and justice
- A thriving planet
- A fair and peaceful world

VALUES

What we care about and what matters most.

UNDERSTANDING

What we learn, make sense of, and see more clearly.

- Knowledge
- Deeper insight
- Wiser perspectives
- Connections across fields

A SHARED LANGUAGE. A BRIGHTER TOMORROW.

This makes sense. A language of wisdom helps us bring everything together — what we know, what we care about, what we're still asking, and what we can do next.

It's not just about finding answers. It's about becoming wiser people.

YES

Yes. And every question, every conversation, every act of understanding matters. Wisdom grows when people explore together.

Shall we continue?

A WISER AND MORE COMPASSIONATE WORLD IS POSSIBLE

AND SO OUR JOURNEY CONTINUES ...

THE METHODS OF WONDROUS WISDOM

Pay attention. Document. Ask. Explore deeper.

Wisdom doesn't appear all at once.

It grows from how we live, what we notice, the questions we ask, and how we make sense of it together.

These are the methods of Wondrous Wisdom — a simple but powerful way to turn life into a language of understanding.

LIFE IS A TEACHER
EVERY EXPERIENCE A QUESTION
EVERY QUESTION A DOOR

OBSERVE
DOCUMENT
QUESTION
CONNECT
CREATE

A BRIGHTER
TOMORROW

SMALL
OBSERVATIONS
LEAD TO
REAL
UNDERSTANDING

PEOPLE

PLACES
EMOTIONS
IDEAS
QUESTIONS

Pay attention.
It matters.

MIRA
So I document what
I experience — not just
big events, but everyday
moments too?

What did I notice?
What did I feel?
What surprised me?
What do I wonder?
What does this mean to me?
What might I do next?

ORI
Exactly. Then ask
honest, first-person
questions. Not just
"What is this?" but
"What does this mean
to me?" or "Why does
this matter?"

MY EXPERIENCES
MY QUESTIONS
MY IDEAS
MY GROWTH

MIRA
Ah — so we don't just
collect ideas. We organize
them, so we can see the
bigger picture.

ORI
Yes. We use the
Four Layers of Inquiry
to make sense of what
we discover. Each layer
adds a deeper level
of understanding.

IDEAS
FIND MEANING
WHEN THEY ARE
CONNECTED
— AND
LIFE CHANGES
WHEN THEY
ARE SHARED

Four Layers of Inquiry

FROM EXPERIENCE TO A MORE WISE AND COMPASSIONATE WORLD

Greater humanity
A kinder, wiser world

CULTURE

How does this live in our
communities, institutions,
and the wider world?
From me to us.

Broader perspective
Richer understanding

CONTEXT

What is the bigger picture?
How does this fit with other ideas,
people, places, and times?
From isolated to connected.

Deeper thinking
New insights

INTERPRETATION

What does this mean?
What patterns, insights,
or possibilities can I see?
From information to meaning.

Real experience
Raw material

DOCUMENTATION

What happened?
What did I notice, experience,
or learn?
From life to information.

THE SAME QUESTIONS, SEEN MORE DEEPLY.
CAN BUILD A BRIGHTER TOMORROW.

MIRA
I see — wisdom isn't just
abstract theory. It's rooted
in real life, and it grows
when we consider how our
ideas affect people and
the world around us.

ORI
Yes. Ideas live in practice —
in how we act, in relationship
with others, and in the
communities we help create.

FROM
UNDERSTANDING

MIRA

So the same question can be explored through different lenses.

ORI

Yes. Each perspective highlights a different part of the whole. Alone, each is incomplete. Together, they reveal a richer truth.

MORE
PERSPECTIVES
A WISER YOU

ORI

It's easy to get stuck in one perspective — our own.

But wisdom grows when we relate perspectives, find their connections, and remain open to what we might be missing.

DIFFERENT
ANGLES.
A CLEARER
PICTURE.

MIRA

It's like turning a question in your hands, seeing it from all sides. The more perspectives I consider, the more complete my understanding becomes.

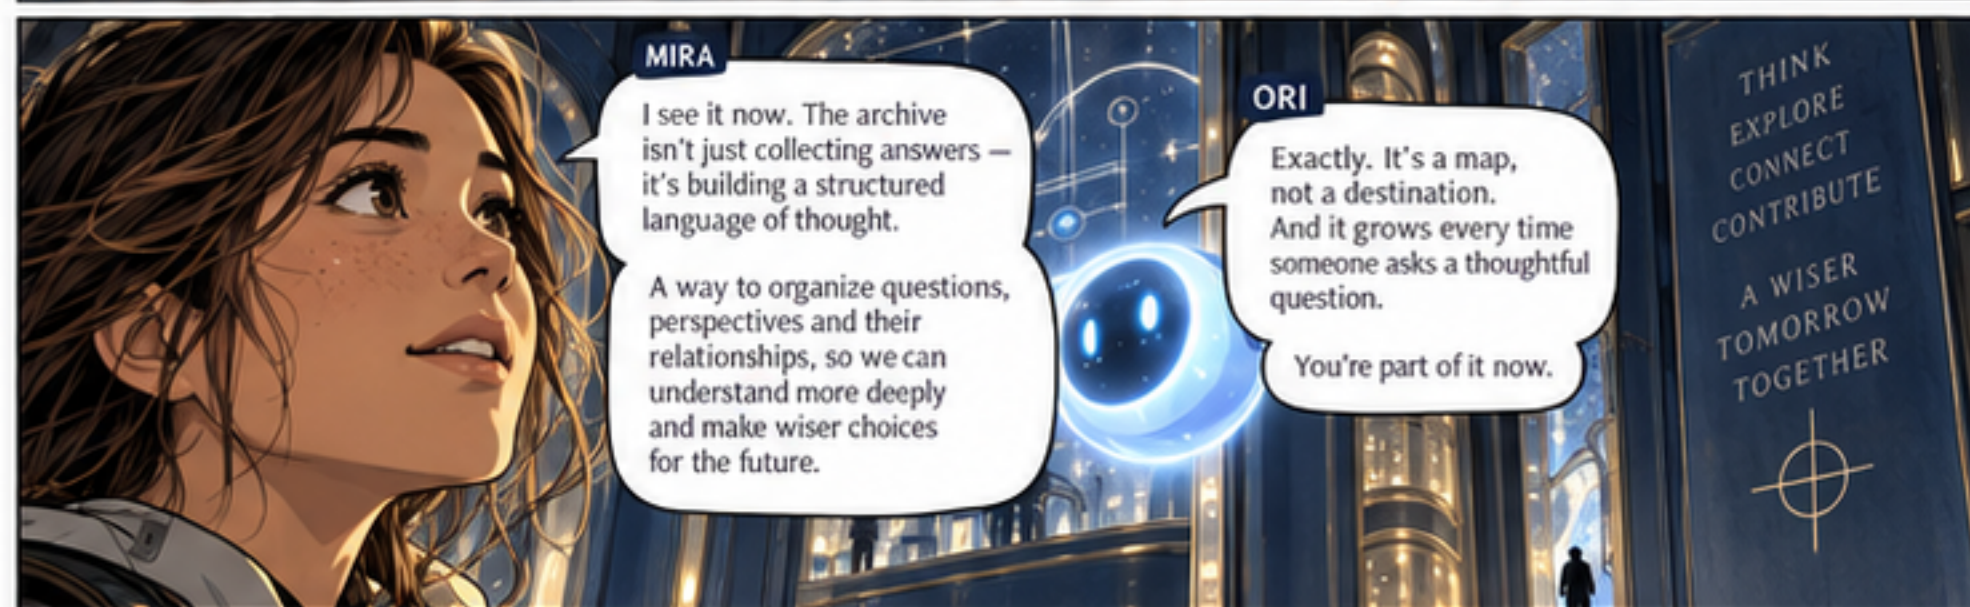

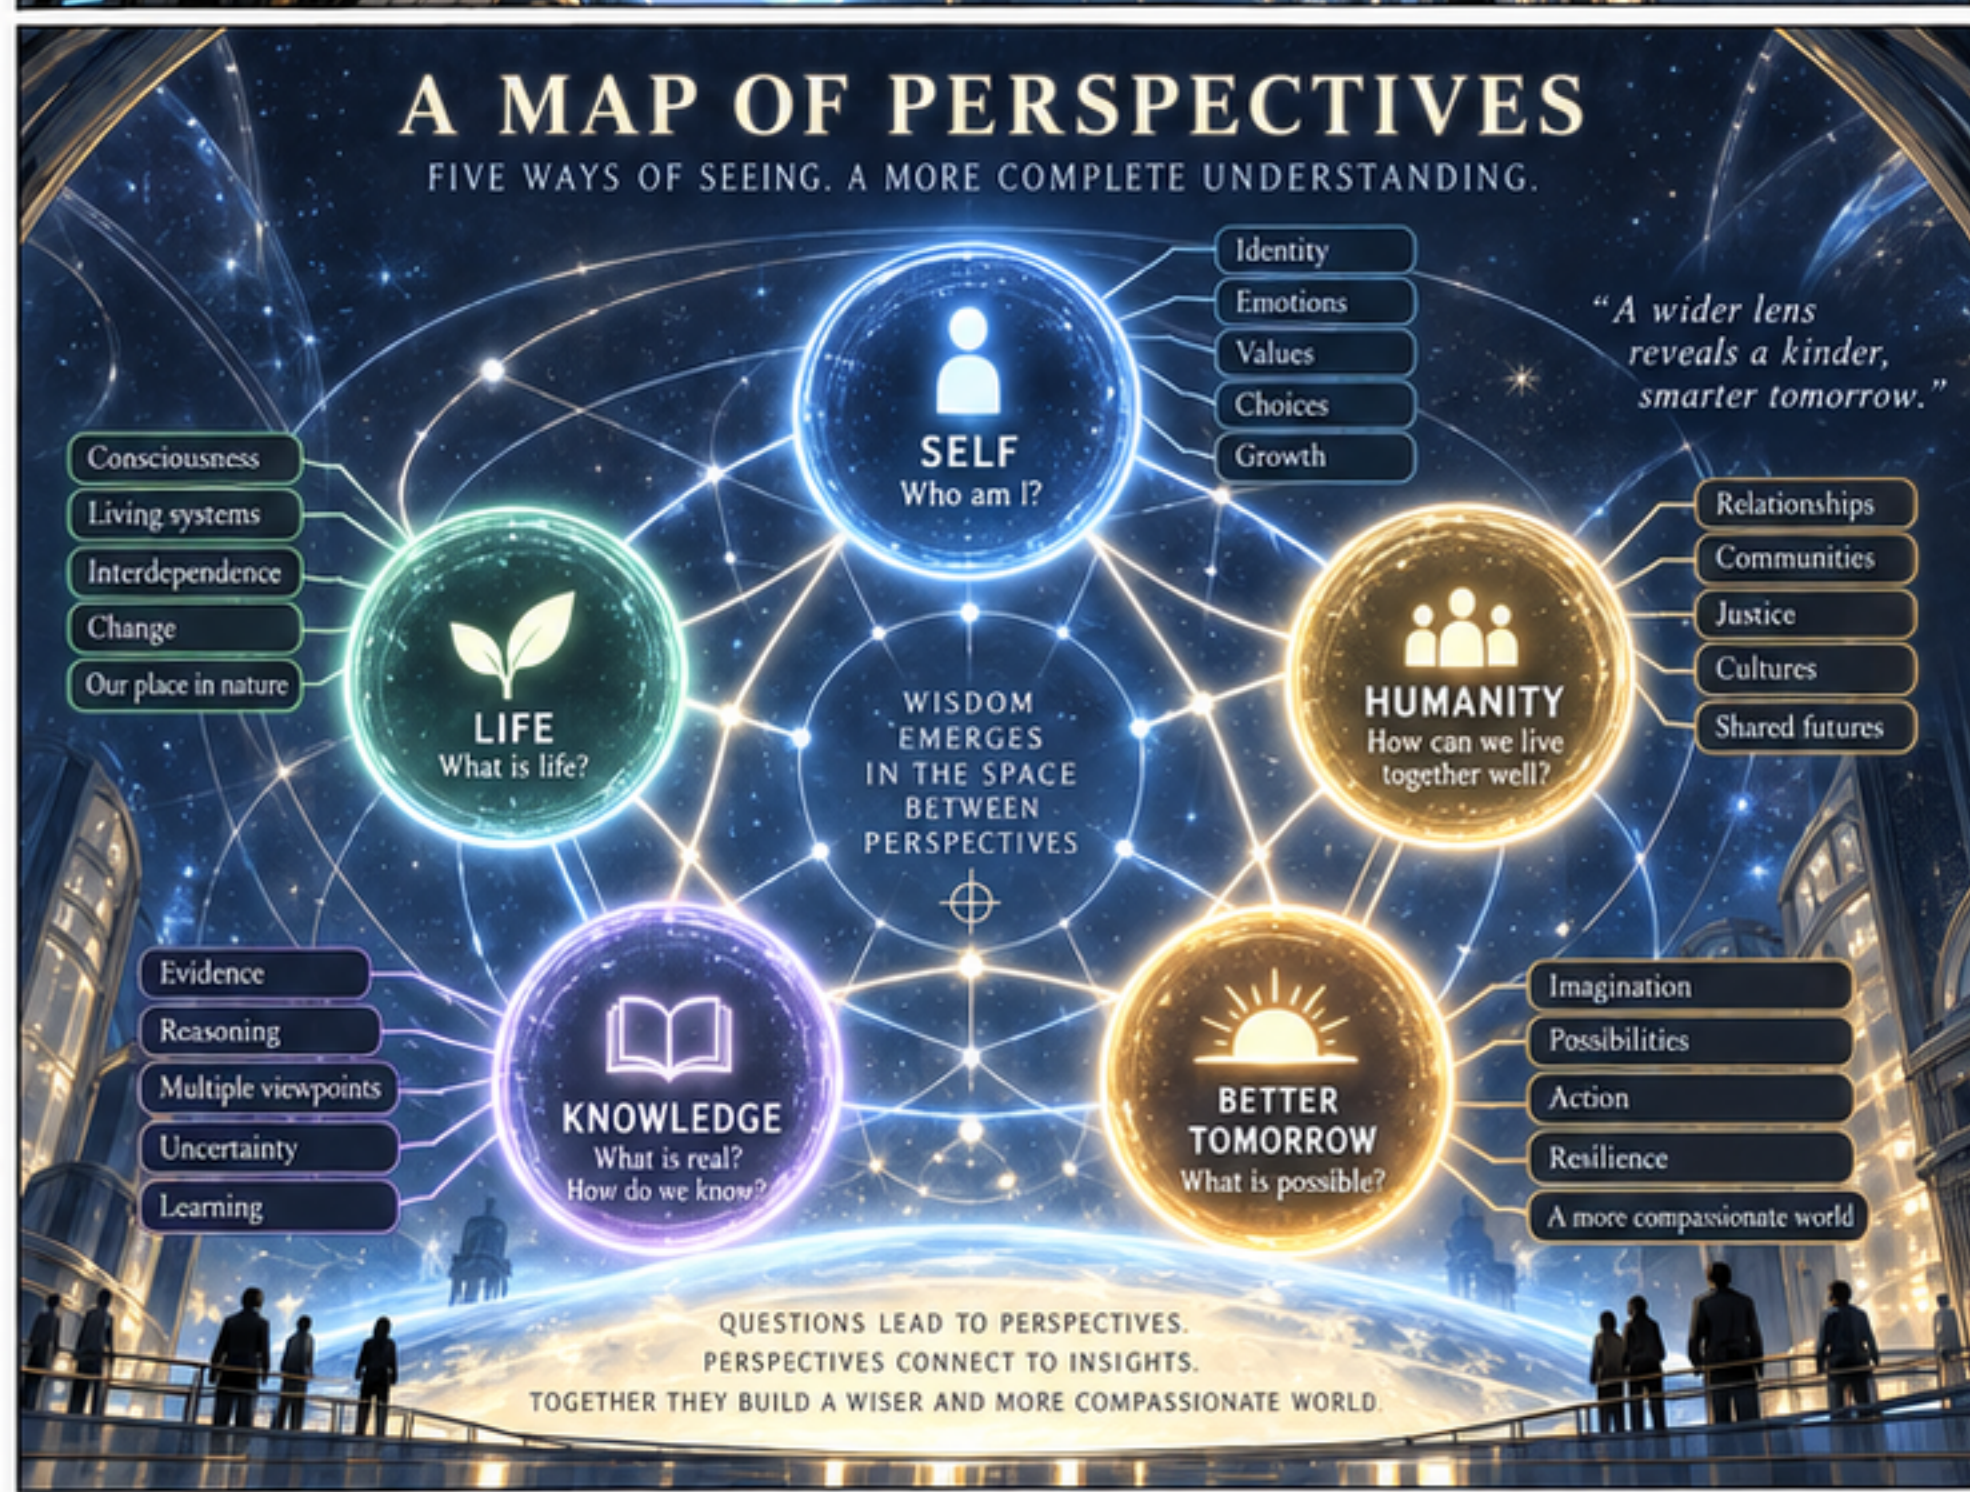

THE ARCHIVE REVEALS ITS PATTERN...

ORI

Wisdom can be mapped. Not as a single answer, but as a structured relationship between recurring perspectives.

QUESTIONS
CONNECT
PERSPECTIVES
CREATE
WISDOM

MIRA

I see it now. The archive isn't just collecting answers — it's building a structured language of thought.

A way to organize questions, perspectives and their relationships, so we can understand more deeply and make wiser choices for the future.

ORI

Exactly. It's a map, not a destination. And it grows every time someone asks a thoughtful question.

You're part of it now.

THINK

A WISER
TOMORROW
TOGETHER

MIRA AND ORI ENTER THE CHAMBER OF THE THREE MINDS.

Wow... Three paths?

ORI

Every human being thinks in more than one way. We have three minds — each serves a purpose. Together, they can lead to wisdom.

THREE MINDS
ONE WISER HUMANITY.

REACTIVE MIND

RELATIONAL MIND

REFLECTIVE MIND

DIFFERENT MINDS
A RICHER YOU
INTEGRATION
CREATES WISDOM

THE REACTIVE MIND

Survival • Impulse • Immediate Response

The reactive mind is fast and automatic. It helps us notice danger, act quickly, and protect ourselves. It's ancient, shared with other animals, and always on alert.

ORI

The reactive mind keeps you alive. It says: "Act now!" It's useful — but it can overreact, seeing threats everywhere if it takes control.

THE RELATIONAL MIND

Bonding • Language • Society

The relational mind helps us connect. It allows us to care, trust, communicate, and build communities. It understands others and helps us belong.

ORI

The relational mind says: "We belong." It helps you understand others, build trust, and create a kinder world. But on its own, it can be biased — favoring "us" over "them."

FAMILY
FRIENDSHIP
LANGUAGE
CULTURE
COMPASSION
TOGETHER
WE FLOURISH

THE REFLECTIVE MIND

Questioning • Meaning • Deeper Understanding

The reflective mind steps back. It asks questions, looks for meaning, considers the big picture, and imagines better futures. It helps us learn, create, and choose with intention.

ORI

The reflective mind says: "Let's think more deeply." It helps you learn, see connections, and imagine what's possible. But on its own, it can get stuck in overthinking or lose touch with action and real people.

WHY?
WHAT MATTERS?
A BIGGER PICTURE
NEW IDEAS
A KINDER TOMORROW

So all three are important... Each has strengths and limits.

ORI

Yes. The goal isn't to choose one mind, but to integrate all three. That's where wisdom begins. Let's see how they work together.

ORI SHOWS MIRA HOW THE THREE MINDS WORK TOGETHER — AND WHY BALANCE MATTERS.

THREE MINDS

DIFFERENT WAYS OF THINKING. A WISER YOU.

REACTIVE MIND

Survival • Impulse • Immediate Response

"Protects us"

Strengths: Fast, alert, keeps us safe
Limits: Can overreact, see threats everywhere
Helps with: Survival, action, energy

WISDOM

Integration

Balances the three
Leads to a wiser, kinder, more complete you

RELATIONAL MIND

Bonding • Language • Society

"Connects us"

Strengths: Empathy, communication, belonging
Limits: Can be biased, emotional, tribal
Helps with: Love, teamwork, a kinder world

REFLECTIVE MIND

Questioning • Meaning • Deeper Understanding

"Expands us"

Strengths: Curiosity, insight, long-term thinking
Limits: Can overthink, feel detached, be slow
Helps with: Learning, creativity, a better future

BALANCE
CREATES
CLARITY.
CLARITY
CREATES
A BRIGHTER
TOMORROW.

WHEN ONE MIND DOMINATES ...

Too much reactive mind...

FEAR
ANGER
IMPULSIVE CHOICES
CONFLICT
BURNOUT

...can lead to reacting, not thinking.

Too much relational mind...

PEER PRESSURE
GROUPTHINK
HURT FEELINGS
US VS. THEM
LOSS OF PERSPECTIVE

...can lead to pleasing others, not being true.

Too much reflective mind...

OVERTHINKING
INDECISION
DETACHMENT
MISSED OPPORTUNITIES
ANALYSIS PARALYSIS

...can lead to thinking, not doing.

I see it now. Each mind is part of being human. When they work together, we can be braver, kinder, and wiser.

ORI

Exactly. The reactive mind gives you energy. The relational mind gives you love. The reflective mind gives you meaning. When you bring them together... that's wisdom. And a brighter tomorrow becomes possible.

A WISER YOU
A KINDER WORLD
A BRIGHTER
TOMORROW

MIRA STEPS INTO A QUIET OBSERVATORY, A PLACE FOR DEEPER QUESTIONS.

TO WONDER IS A HUMAN GIFT

SAME QUESTIONS BRIGHTER HUMANITY

It's beautiful... It feels like a place made for the questions that really matter.

Who am I?

What is my place in the universe?
What makes me, me?

What matters?

What is truly important?
What gives life meaning?
What should I live for?

Why is there suffering?

Why do good people suffer?
What can we do about it?
Can suffering have meaning?

How should I live?

What is a good life?
How do I treat others?
What kind of person should I become?

THESE QUESTIONS HAVE TRAVELED ACROSS CULTURES AND CENTURIES. WE ARE NOT THE FIRST TO ASK THEM — AND WE WILL NOT BE THE LAST.

These questions feel so big... and so personal.

I'm not just looking for facts. I want to understand what it all means — for me, for others, for life itself.

ORI

You are asking the heart of Wondrous Wisdom.

Human inquiry begins right here — with wonder, with honest questions, and with a desire to live more fully and more compassionately.

So these are the human questions. But is that all there is? Are we just figuring things out on our own?

ORI

Wondrous Wisdom also invites a theological or transcendent interpretation.

It holds that reality may not be silent — that meaning, purpose, or even a loving source of all that is, can be imagined as addressing us from above.

TWO DIRECTIONS OF INQUIRY

A CONVERSATION BETWEEN HUMAN SEEKING AND DIVINE MEANING

HUMAN INVESTIGATION
FROM BELOW

We observe.
We ask questions.
We use reason and evidence.
We learn from experience.
We explore what is.
We seek understanding.

MEANING
CALLING
GRACE

DIVINE INVESTIGATION
FROM ABOVE

Meaning speaks to us.
We imagine a source of wisdom, purpose, or love.
Grace can be seen as meeting us.
We receive, interpret, and respond.
We explore what could be.
We seek transformation.

CONVERSATION

"WE SEEK TO KNOW."
— MANY GENERATIONS

HUMANITY
SEEKS
UNDERSTANDING

EXPERIENCE
QUESTIONS

MAYBE MEANING
SEEKS US TOO

"MAYBE WE ARE ALSO KNOWN."
— A GREATER MYSTERY

A WISER AND MORE COMPASSIONATE WORLD

So the framework holds both. We investigate from below, through experience and reason...

And we also remain open to meaning from above — to the possibility that reality speaks, invites, and calls us.

That feels right. It's not either-or. It's a conversation.

ORI

Yes. Human and divine inquiry are two directions of the same journey — meeting in dialogue.

Not all questions have final answers, but the journey itself can lead to a wiser, kinder, and more compassionate world. And you are part of that journey.

TO QUESTION, TO LISTEN, TO SEEK, TO BE OPEN — THIS IS A HUMAN AND DIVINE ADVENTURE.

A REAL QUESTION, REAL PEOPLE

Mira attends a civic forum where colonists are discussing a difficult decision: should they expand the city to the Valley, a fragile ecosystem with rare lifeforms?

So many strong opinions. Everyone cares — but they see different things.

NEEDS

"We need more housing now."

Families are living in cramped quarters. We need more homes, more jobs, and more food production. People's needs are urgent. We can't afford to wait!

DOUBTS

"Are we sure this is safe?"

We don't fully understand the ecosystem. What if we damage something we can't repair? There are too many unknowns. We should be more cautious.

EXPECTATIONS

"This will help our future."

Expanding to the Valley will create opportunities for future generations — more space, more research, a stronger economy. We can plan carefully and make this work.

VALUES

"Some places are worth protecting."

The Valley is home to unique life. Not everything valuable can be measured in credits. We have a responsibility to protect what is rare, beautiful, and sacred — for its own sake.

NEEDS FOCUS ON WHAT IS REQUIRED NOW.

DOUBTS QUESTION, PROBE, AND LOOK FOR RISKS OR GAPS.

EXPECTATIONS LOOK AHEAD, SEEK POSSIBILITIES, AND CONSIDER LONG-TERM OUTCOMES.

VALUES POINT TO WHAT MATTERS, TO PRINCIPLES AND HIGHER PURPOSE.

A CLEARER PICTURE

Now I see it... They're not just arguing. They're speaking from different orientations.

DIFFERENT LENS
A STRONGER US

When we name them, it's easier to understand — and to find a wiser way forward.

So needs, doubts, expectations, and values are all important? Even when they seem to conflict?

Yes. A language of wisdom helps us recognize each one, rather than confusing one for the whole truth.

ORI

Most conflicts happen when one orientation is mistaken for the only valid way of seeing things.

ALL FOUR
A CLEARER WORLD

WIDER QUESTIONS
DEEPER UNDERSTANDING
KINDER SOLUTIONS

FOUR ORIENTATIONS

A FULLER PICTURE. WISER CONVERSATIONS. A BRIGHTER TOMORROW.

NEEDS

Focus on what is required for basic well-being in the present.

Examples: safety, food, housing, health, security.

NEEDS

What is required now?

DOUBTS

What might be risky or unknown?

DOUBTS

Question, probe, and look for risks, uncertainties, or gaps in understanding.

Examples: what if? What are the downsides? What don't we know?

VALUES

What truly matters?

VALUES

Point to what matters, to principles, dignity, and higher purpose.

Examples: fairness, compassion, beauty, respect for life, what is right.

EXPECTATIONS

What could be possible?

EXPECTATIONS

Look ahead to possibilities, set hopes and plans, and consider long-term outcomes.

Examples: opportunities, innovation, growth, better futures.

ALL FOUR TOGETHER

HELP US SEE MORE, UNDERSTAND DEEPER, AND CHOOSE MORE WISELY.

MORE PERSPECTIVE
A MORE HUMAN TOMORROW

It's like a compass. Each orientation shows something real. When we listen for all four, we get a much clearer picture.

Instead of winning an argument, we can explore together and find wiser solutions.

Exactly, Mira.

A language of wisdom doesn't eliminate differences — it helps us understand them.

When we can name needs, doubts, expectations, and values, we move from conflict to curiosity, from division to dialogue, and from reactive choices to a more compassionate future.

DIFFERENT ORIENTATIONS
A BRIGHTER TOGETHER

MIRA RETURNS TO THE COLONY...

Carrying not just answers, but a better way to ask — and a deeper way to listen.

We're back, Ori. Now the real work continues — here, with people.

ORI
The best questions often begin at home.

PEOPLE
QUESTIONS
PERSPECTIVES
A BRIGHTER
TOMORROW
TOGETHER

DIFFERENT PEOPLE A BRIGHTER TOMORROW

A WISER
WORLD
GROWS
HERE

MIRA HELPS FACILITATE A COMMUNITY DISCUSSION ABOUT A REAL DECISION — A NEW HABITAT EXPANSION.

I'm excited about the expansion. It could give more people homes and opportunities.

I'm also worried. What about the environment? Could we harm vital ecosystems?

For me, what matters is fairness. Will everyone have a voice? Not just the most powerful?

Let's slow down and explore this together. We can look at the facts, share different perspectives, and be clear about what we each value.

I hope we can find a solution that is innovative, sustainable, and inclusive.

A MORE STRUCTURED CONVERSATION EMERGES...

FACTS
What do we know?
What is the evidence?

EXPERIENCE
What have we experienced?
What can we learn from others?

VALUES
What matters to us?
What kind of future do we want?

UNDERSTANDING
What might be different perspectives?
What are we not seeing yet?

WISDOM
What is a thoughtful next step?
How can we care for people and the planet?

This process helps me see more clearly. I still have doubts, but I also feel more hopeful.

Me too. We don't all agree on everything, but we understand each other better. That's a real step forward.

CURIOUS PEOPLE
KINDER SOLUTIONS

That's the power of a shared language of wonder — it helps us think deeper, together.

BETTER QUESTIONS. BRIGHTER TOMORROWS.

LATER, MIRA AND ORI LOOK OUT OVER THE COLONY...

It's amazing. The journey started with questions, and it led to so much more — new understanding, new connections, and a deeper sense of what it means to be human.

ORI
Because you kept asking. And because you cared.

Wisdom isn't a place we arrive at. It's a way of living — always curious, always learning, always more compassionate.

SAME QUESTIONS.
BRIGHTER PEOPLE.
A MORE COMPASSIONATE WORLD.

PEOPLE
PLANET
POSSIBILITIES
TOGETHER

WISDOM GROWS IN ALL OF US...

We learn by living, by asking questions, by listening to others, by exploring different perspectives, and by caring about what is true, good, and possible.

Wisdom is a language we speak together — in our choices, our conversations, and our shared future.

It doesn't give us all the answers, but it helps us ask better questions, understand more deeply, and build a kinder, brighter world — together.

And so the journey continues ... because wonder never ends.

A WISER
TOMORROW

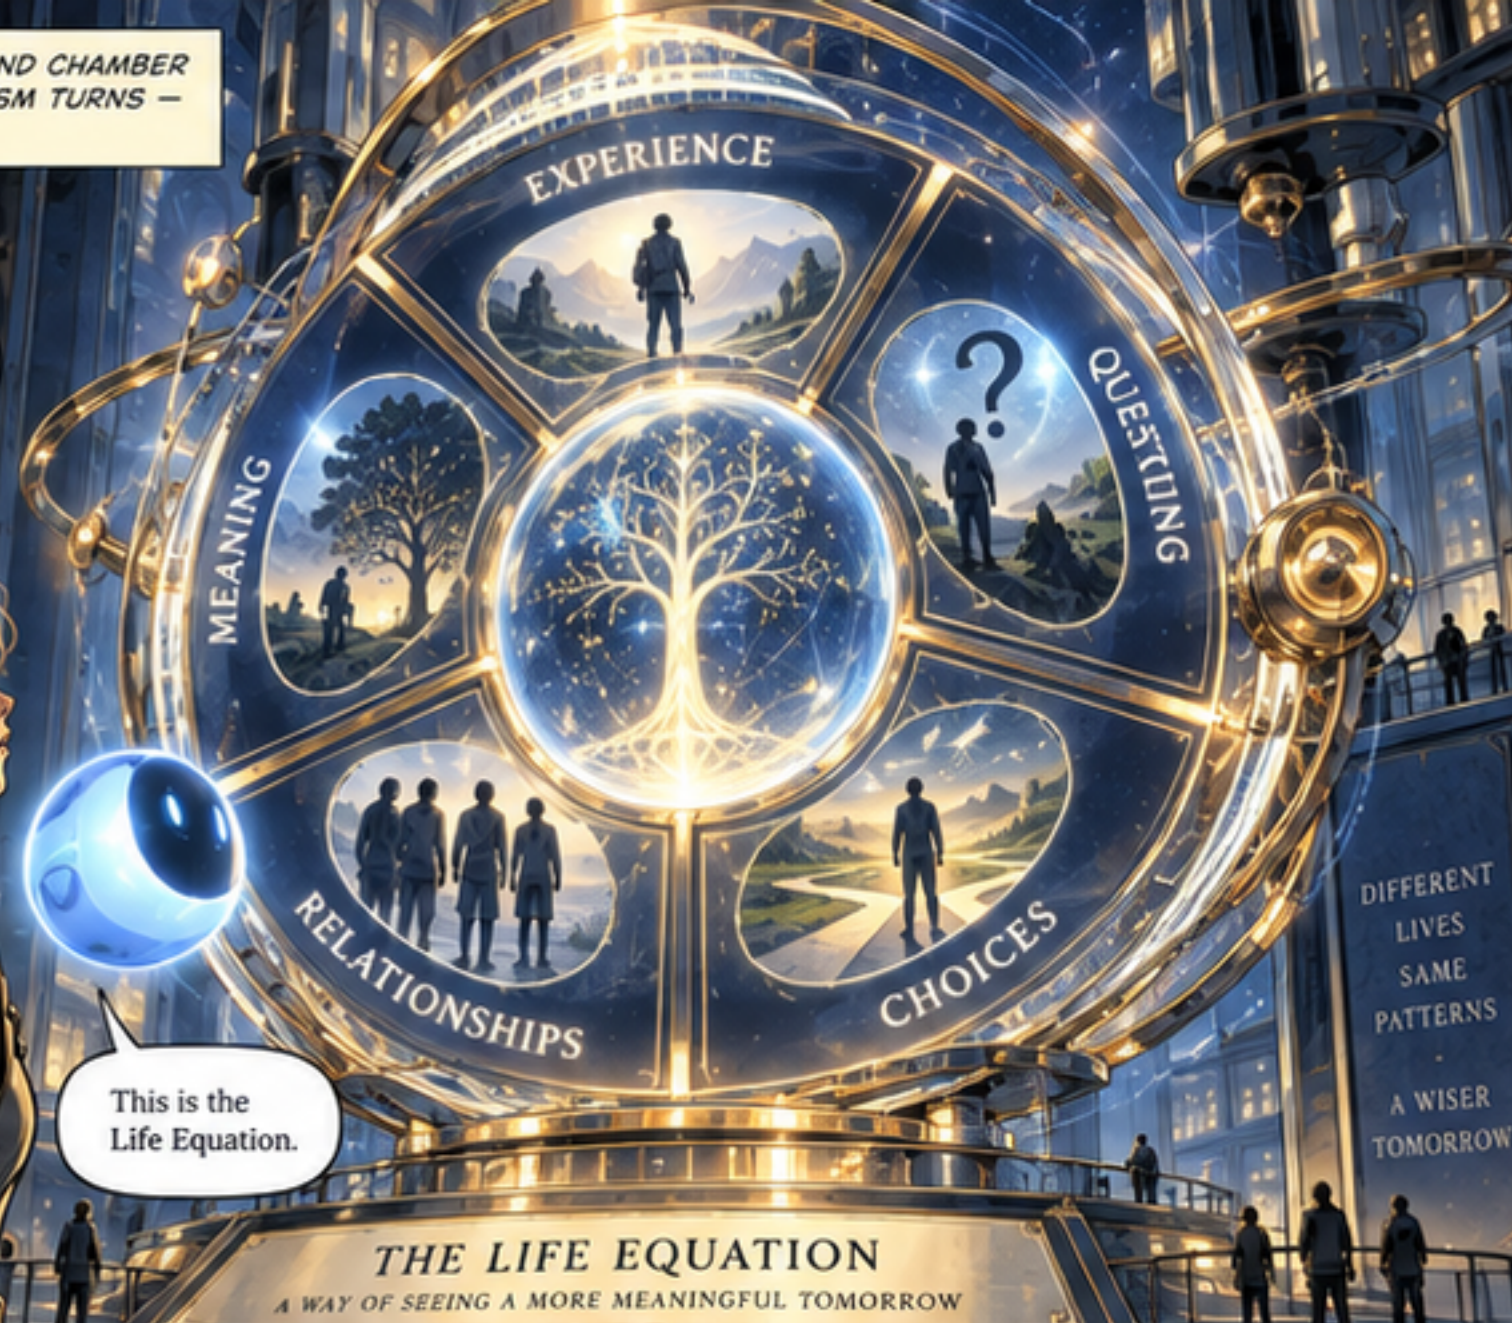

SAME QUESTIONS.
BRIGHTER PEOPLE.
A MORE COMPASSIONATE WORLD.

The End.

MIRA STEPS INTO A GRAND CHAMBER WHERE A VAST MECHANISM TURNS — THE LIFE EQUATION.

Wow...
What is this?

This is the
Life Equation.

So it's an equation?
Like a formula for life?

Not a literal equation.
It's a way of relating key parts
of being human — lived experience,
questions, choices, relationships
and meaning.

It helps us see how they
influence each other, and how
small changes in one area can
open new possibilities in others.

LIFE IS NOT A
SINGLE ANSWER.
IT IS A LIVING
RELATIONSHIP
BETWEEN
MANY THINGS.

It's like a living system...
everything is connected.

EXPLORING LIFE'S
PATTERNS HELPS US
ASK BETTER QUESTIONS,
MAKE WISER CHOICES,
BUILD DEEPER
RELATIONSHIPS,
AND CREATE
A MORE MEANINGFUL
TOMORROW.

Exactly, Mira.
The Life Equation
is a tool for a more
thoughtful, kinder,
and more curious way
of living.

So the archive has
looked across cultures,
from science to philosophy,
from personal stories to
big questions...

...and it keeps finding
the same kinds of
patterns?

Yes.
Again and again.
Human inquiry and
human life seem to
organize around a set
of recurring structures.

DIFFERENT
PEOPLES
DIFFERENT TIMES
DIFFERENT WORDS
SIMILAR PATTERNS
A BRIGHTER
TOMORROW

A 24-FOLD MAP

A PATTERNED LANGUAGE FOR A WISER AND MORE COMPASSIONATE WORLD

The 24-fold structure organizes
recurring themes we find across
human life and inquiry. It is not
a rigid system, but a helpful map
for exploration, learning and
action.

Twenty-four interwoven
dimensions, grouped into
four core areas, offer a simple
way to navigate complexity
and see the bigger picture.

I see it now.
The 24-fold map isn't about
having all the answers —
it's a language for exploring life,
together. It helps us notice patterns,
ask better questions, and choose
a kinder, wiser way forward.

Exactly.
Patterns are not meant
to restrict your thinking —
they're invitations to explore,
understand, and create a
more meaningful tomorrow.

SAME PATTERNS
